BulletHead BOOKS

DESIGN AND BRAND GUIDELINES

WELCOME TO YOUR BEAUTIFUL NEW BRAND.

Included in your logo package are all the files you need to keep your brand cohesive all the way around: print, web, and digital. The last page of this guide is a cheat-sheet containing more details about the file types included and how to use them effectively.

This Logo Guide includes all of the logo styles that you approved. You will also find a full color palette (PMS, CMYK, RGB, HEX #) to ensure that your brand colors are the same on every platform and on all the materials you produce.

Typography has also been selected for your brand, including a Primary and Secondary font. These fonts should be used exclusively to keep your brand consistent. Simply copy and paste the links into your browser to download the fonts from the web.

If you ever have any questions, please don't hesitate to ask! We look forward to working with you as your business grows. We not only create beautiful brands, but also help businesses grow with website design, social media, marketing materials & strategy, and so much more.

CORPORATE LOGO

THE COMPLETE PACKAGE

The Bullethead Books logo comprises two elements: the logo symbol and wordmark. The symbol is a simple, classic take on the company's initials in the style of a distinguished monogram. Its aged look make it a perfect match for the typography in the logo.

The logo type has been carefully chosen for its vintage, academic style. This makes the brand appear serious, yet with a touch of ruggedness. The typeface is Karoll, but a set of web-safe fonts has been chosen for the brand on page 3.

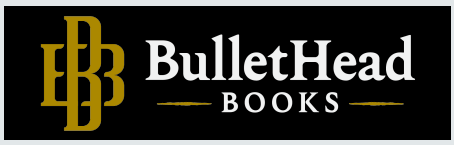

The logo is presented through the use of color as well as shape and form. The main corporate colors are Black, Smoke, and Brass. Secondary colors of Grey and Gold provide versatility in design. These colors have been selected according to international standards as shown on page 4 and are easily implemented across all media.

Logo Variations
There is a variation of the logo for any situation, in print or on the web. If you need to use the logo in a space that would affect its legibility, please use a different variation that can be more clearly presented in that space.

Included formats are:
.eps | .ai | .png | .jpg | .pdf

Attention:
Use of any stylized, animated, hand-drawn or other versions of an unofficial logo is not permitted. This undermines the logo system and brand consistency. Please consult with Bullethead Books if you have any questions or need further help.

CORPORATE TYPOGRAPHY

Typography plays an important role in communicating an overall tone and quality. Careful use of typography reinforces the brand's personality and ensures clarity and harmony in all Bullethead Books communications. We have selected Newsreader and Roboto - a balanced combination of serif and sans serif fonts that brings personality to text.

PRIMARY FONT
NEWSREADER

DESIGNER :
PRODUCTION TYPE
-

THE FONT
NewsReader is an original typeface designed by Production Type, primarily intended for continuous on-screen reading in content-rich environments.

Newsreader

a b c d e f g h i j k l m
n o p q r s t u v w x y z

SECONDARY FONT
ROBOTO

DESIGNER :
CHRISTIAN ROBERTSON
-

THE FONT
Roboto has a dual nature. It has a mechanical skeleton and the forms are largely geometric. At the same time, the font features friendly and open curves. Roboto doesn't compromise, allowing letters to be settled into their natural width. This makes for a more natural reading rhythm more commonly found in humanist and serif types.

CORPORATE COLORS

Color plays an important role in the Bullethead Books brand identity. The colors below are recommendations for various media. A palette of primary colors has been developed, which should be relied on heavily for text and main design elements.

Consistent use of these colors will contribute to the cohesive look of the Bullethead Books brand identity across all relevant media. Check with your designer or printer when using the corporate colors so that they will be always be consistent.

PRIMARY COLORS

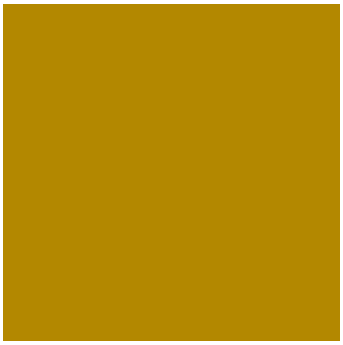

BLACK

COLOR CODES
CMYK C000 M000 Y000 K100
Pantone Neutral Black C
RGB R000 G000 B000
Hex #000000

SMOKE

COLOR CODES
CMYK C004 M003 Y003 K000
Pantone Cool Gray 1C (25%)
RGB R241 G241 B241
Hex #f1f1f1

BRASS

COLOR CODES
CMYK C033 M040 Y100 K007
Pantone 111 C
RGB R171 G137 B000
Hex #ab8900

SECONDARY COLORS

The Secondary colors are complementary to the colors above, but are not recognizable identifiers for Bullethead Books when used by themselves.

Secondary colors should be used sparingly, that is, in less than 10 % of the palette in any given piece. Use these secondary colors to accent and support the primary color palette.

COLOR CODES
CMYK C066 M056 Y053 K029
Pantone 425 C
RGB R083 G087 B090
Hex #53575a

COLOR CODES
CMYK C000 M018 Y100 K000
Pantone 116 C
RGB R255 G205 B000
Hex #ffcd00

FILE INFORMATION

The logo package contains a lot of files. There are several file types for every logo style, in every color variation. If you're having trouble deciding which is the appropriate file to use in any given situation, please refer to the information provided here.

LOGO - FULL COLOR

The vector (AI, EPS, PDF) files are created in CMYK colors and are meant for full-color printing, magazine ads, or any materials that you intend to print from your own desktop color printer, i.e, invoices, receipts, letters, etc.

The Web files (JPG, PNG) are created in RGB colors and are made to be used on-screen, i.e. on your website, email, or social media.

LOGO - BLACK AND WHITE

This version should be used on faxes or any materials you reproduce using a copier. It is also the version that you should provide when you want your logo engraved.

WHICH FORMAT SHOULD I USE?

For printing purposes:

AI, EPS, and **PDF** formats are vector art. Vector art files are what printers need, because they can be resized for any purpose without any loss of quality. It is always the preferred file type for screen printing, embroidery, and any method of high-quality printing where quality and color specification are vital.

For electronic or on-screen purposes:

JPG and **PNG** formats are best for display on screens, whether it be on a desktop, smartphone, or tablet. These formats are required for websites, social media, PowerPoint, email signatures, and other on-screen applications.

Important note: The JPG files have a solid white background, while PNG files have a transparent background. This allows the PNG files to be used on top of any other background colors or elements.
